Dear wonderful grandparents,

Every step I take I take in your memory. You make the way for me. I feel that in addition to our family, you are the last piece in the jigsaw puzzle. Please come to the festive cheer of London and observe the jolliness.

I have known for a long time that you love Florida, but consider spending your time in the high-spirited London. It is one of the best places to celebrate Christmas.

In the urban areas of London, the festive cards and lights are much more brilliant than the ones in Florida. It fulfills your dream of having a fun holiday. Christmas has only one thing to offer. Look at all the fun we're having.

From,
Darien.
