

Tongo Lizard

The Tongo Lizard is a powerful and dangerous creature. Did you know there are over 4,500 species of Lizard in the wild? This species is endangered and rare because it is being hunted by humans for its beautiful features.

Appearance

This Lizard has pink, dotty skin. With blood red eye, this animal has a long tail with spikes at the end of it. Did you know it changes a rainbow colour to reflect its mood?

Diet

From a young age, this Tong Lizard seek their homes. Surprisingly, this Lizard is an omnivore so it eats insects and small plants. It needs protein to grow into a strong Lizard that can fight big predators.

Habitat

Living in many habitats this Lizard has adaptive qualities to suit their climate. In sub-Saharan countries, they use the sand to cool down. In tropical areas, they dig burrows under soil to hide!
