

Dear Santa ,

I believe this letter finds you in an over joyed spirit during this festive season. I am writing to you for an urgent request asking for time to go faster. I hope you understand.

As you know, christmas time is the most magical time of the year. If you would consider this, my house would bubble with glee and my heart would pounce with contentment. Wouldn'tt you agree?

Adiditonally, all of the teachers claim that I am immensely generous and as kind as an angel. Every day, I wash the dishes and my mum describes me as an sweet role model. If you deliver this heart warming present, I would ZOOM through the house energetically, completing all the house work.

Family, love and giving are extremely special to me over this festive period. All I desire is my hope full wish and for it to arrive sooner, filling my body with happiness.

Merry Christmas

From Agisha
