

Dear Miss Wakeling,

I am writing a letter to you, in response to your recent letter about the school menu.

We also understand that your priority is about our health. However this new school menu may affect some children's wellbeing. We all know you're trying to do the best you can be and we know you're a lovely head, however this may affect children's wellbeing and can cause siver problems. Would you like children throwing up in the class room and a stinking lunch room.

Firstly, year 4 feel disgusted about the introduction of school rules. Not all children will like these foods. Also some children may have allergies, this could result in children going to the hospital and could cause children to throw up. This new implementation may contain very awful items due to allergies and siver stomach pain. Due to this could result in children having to go to the hospital and go hungry.

Fatima
